

Oroxylum indicum (L.)

Kurz

Family: Bignoniaceae

Common name: Indian trumpet tree

Local name: Tantary

Importance:

- It's root bark is an astringent, tonic, anti-diarrhoeal, diuretic, anodyne and is used to cure dropsy.
- It is an ingredient of 'dashamoolarishta' of Ayurvedic medicine.
- Stem bark is anti-rheumatic. An infusion of bark powder is diaphoretic.
